

Swimming Officials Manager Report

The team of Course Leaders are continuing to train new Officials and have run several courses this year all over the County.

There has been training at all levels, from Judge Level 1 through to Referee enabling clubs and County to run successful swimming meets; we could not do this without officials.

The most significant change is that Judge Level 1 theory learning is going on line before candidate do their poolside training. There have been some updates from Swim England but nothing has been finalised. This is planned to start in January 2020 and as soon as there is more information available, this will be posted on the County website.

I would like to thank everyone who helps with the delivery of training.

Kay McGuire
